

October 6th, IPS2020

Dear all,

We are happy to invite you to the annual Meeting of the Israel Physical Society, to be held at the Weizmann Institute of Science on Monday, February 17, 2020.

An opening keynote talk, "From redefining the second to observing of gravitational waves in space," will be given by Prof. Jun Ye (JILA, Boulder). The closing talk will be given by novelist Simon Singh, the author of "Fermat's Last Theorem", "The Code Book(s)", "Trick or Treatment", and others.

For more information regarding the meeting, including the preliminary program and registration details, please visit the IPS2020 webpage,

Please forward to your colleagues and students and mark your calendar accordingly.

We hope to see you all at the Weizmann Institute in February!

With best regards, on behalf of the organizing committee,

Gilad Perez
